"HERE BEGINETH THE TRUE ORDER OF MASONRIE.

"The might of the Father of the Heavens The Wisdome of the Glorious Son, And the goodnesse of the Holy Ghost three persons 'and one God be with vs now and ever Amen.

"Good Bretheren and Fellows our purPose is to shew you how and in what manner this Noble and Worthy Craft of Masonry was first founded and begun, And afterwards how it was confirmed by worthy Kings and Princes and by many other Worshipfull men, And also to all those the be heere, Weeminde to shewe you the Charge that belongs to every trew Mason to keep, for in good Faith if you take good heed it is well worthy to be kept for A worthy Craft and curious Science.

Srs there be Seaven Liberal! Sciencies of which the Noble Craft of Masonry is one, And the Seaven be these, The first is Gramer and that teacheth A man to Spell and Write trewly. The second is Rethorick and that teacheth A man to speake faire and Subtill, The third is Lodgick and that teacheth A man deseme the trew from the false, The ffowrth is Arethmatick and that teacheth A man to Reckon and Account all manner of Accompts, the fifth is Geometry and that teacheth A man and Measur of Earth and of all things of the which this Science is called Geometry, The sixth is called Musick, and that teacheth A man to sing with Voyce

and Tongue and Organ Harp and Trump, The Seaventh is called Astronemy and that teacheth A man to know the Course of the Sunn and the Moone and the Starrs, these be the Seaven Liberall Sciencies of the which all be founded by one which is Geometry, and thus a man, may prove that all the Seaven Sciencies be founde by Geometric for it Teacheth A man and Measure Ponderation weight on all things on Earth, For there is noe Workman that Worketh any Craft but he worketh by some Mett or Measure. And every man that buyeth or Selleth they buy or Sell by some weight or Measure, And all this is Geometry, And the Merchants and all other Craftsmen of the Seaven Sciencies, and the Plowmen and Tillers of the Earth and Sowers of all manner of Graines Seeds and Vine plants, and Setters of all manner of ffruits : For Gramer or Arethmatick nor Astronomy nor none of all the Seaven Sciencies can no man finde Mett or Measure in without Geometry wherefore methinks that the said Science of Geometry is most worthy. And all the other be founded by it. But how this worthy Science and Craft was first founded and begun I shall tell you before Noyes fflood there was A man which was called Zameth as it is written in the Bible in the 4th Chapter of Genesis, and this Lameth had 2 Wifes the one called Ada the other Sella, by the first wife Ada he begat a Sonne and a Daughter And these 4 Children found the begining of all these Crafts and Sciencies in the World flfor the Eldest Sonne Gabell found the Craft of Geometry and he fed fiflocks of Sheep and Lambs in the fifeild : And first wrought houses of Stone and he and his Brother Tuball found the Crafts of Musick song of mouth harp and Organs and all other Instruments. The third Brother Tubalican found the Smith Craft of Gold and Silver Iron and Copper and Steel, And the Daughter found the Craft of Webbing and these Children knew well that God would take vengeance for Sinn either by ffire or Water, wherefore they wrought the Scyences they had founded in 2

Fillers of Stone, that they might be found afterwards, and the one Stone was called Marble for that would not burne in the ffire, and the other Stone was called Latherne and that would not be drowned with water; Our Intent is to tell you how and in what manner these Stones were found that these Sciencies was written on the Herminenis that was Cubb his Sonne, The which Cubb. Semet. Sonne the which Sonne was Noaths Sonne this same Herminerus was afterwards called Armes the ffather of the Wisemen he found one of the 2 pillers of Stone and found the Science written therein and he taught it to others, And at the making of the tower of Babilon, was Masonrie first made there much of, and the King of Babilon called Nemroth who was a Mason himselfe and loved well the rest as is said with the Masters of Stories, And when the City of Ninniey or the City of the East Port should have bin made Nemroth the King of Babilon sent thither Sixty Masons of his Region to the King of Ninevey his cozen, And when he sent them forth he gave them a Charge in this manner.

"The first was that they should be true to their King Lord or Master that they served and that they shoulde Ordaine the most wise and cunning man to be Master of the King or Lords worke that was amongst them, and neither for Love Riches nor favour to sett another that had little cunninge to be Master of that Worke whereby the Lord should bee ill served And the Science ill Defamed.

"Secondly that they should call the Governor of the Worke Master all the tyme they wrought with him and other many more Charges that were to long to write, and for the keeping of all those Charges he made them sware a great Oath which men vsed at that time. And ordained for them reasonable pay that they might live with honestie, and also he gave them

in Charge that they should Assemble together every yeare once to see how they might Worke best to serve the King or Lord for their profitt and their owne Workship, And also that they should correct within themselves those that had Trespassed against the Science or Craft, And thus was this Noble Craft first grounded there, And the worthy Mr Ewclides gave it the name of Geometry, And how it is called throughout all the World Masonrie Long after when the Children of Israeli were come into the Land Berhest which is now called the Countrey of Jerusalem where King David begun the Temple that is now called Templu Dei, and is named with us the Temple of Jerusalem, and the same King David Loved Masons then right well and gave them good pay, and he gave the Charges and Manners that; he learned in Egypt which were given by that worthy Doctor Ewclid and other more charges that you shall heare after wardes; And after the decease of King David, then Reigned Solloman that was King Davids Sound and he performed out the Temple that his ffather had begun and he sent after Masons into Diverse Countreys and into Diverse Lands and he gathered them together so that he had 24000 Workers of Stone and were all named Masons and he Chosed out of them 3000 and were all ordained to be Masters, Rulers and Governors of his worke, and then was there a King of another Region which men called Iram and he loved well King Solloman and gave him Timber to his work and he had a Sonne that was called a man that was Master of Geometry, and was chiefe Master of all his Masonrie & of all his Graving, Carving and all other Masonry that belonged to the Temple, this is Witnessed in the holy Bible (in Libro Regium quarto et Tertio) and this same Solloman Confirmed both the Charges and the Manners which his ffather had given. And thus was the worthy Craft of Masonrie confirmed in that countrey of Jerusalem And many other Regions and Kingdoms men walked into Diverse Countreys some because of Learning

to learne more Cunning, And some to teach them that had but little Cunning, and soe it befell that there was a Curious man named Namas Greecious who had beene at the makeing of Sollomans Temple And he came from thence into France and there he taught the Science of Masonrie to men of that Land and so there was one of the Royall Line of France called Charles Marshall and he was A man that loved well the said Craft and took upon him the Rules and Manners and after that By the Grace of God he was elect to be the King of ffrance and when he was in his Estate he helped to make those Masons that were now, and sett them on Work and gave them Charges and Manners and good pay as he had Learned of other Masons, and Confirmed them a Charter from yeare to yeare to hold their Assembly when they would and Cherished them right well, and thus came this Noble craft into ffrance and England, in that season stood void as ffbragine Charge of Masons vntill St. Albanes and St. Albans was a worthy Knight and Steward to the King of his household and had Government of his Realme And also of the makeing of the Walls of the said Towne, and he loved well Masons and Cherished them much and made there pay right good for he gave them iijs vjd a week & iijd before that time all the Land a Mason took but one penny a day and his meat till St. Albones mended it and he gott them a Charter of the King and his Councell for to hold a Generall Councell and gave it to name Assembly. Thereat was he himselfe and did help to make Masons and gave them Charges as you shall heare afterwards, soone after the Decease of St. Albones there came Diverse Warrs into England out of Diverse Nations so that the good rule of Masons was dishired and put downe vntill the tyme of King Adilsion in his tyme there was a worthy King in England that brought this Land into good rest and he builded many great workes and buildings, therefore he loved well Masons for he had a Sonne called Edwin the which Loved Masons much more then his

ffather did and he was soe practized in Geometry that he delighted much to come and talke with Masons and to Learne of them the Craft, And after for the love he had to Masons and to the Craft, he was made Mason at Windsor and he gott of the King his ffather a Charter and Commission once every yeare to have Assembly within the Realme where they would within England and to correct within themselves ffaults & Trespasses that weere done as Touching the Craft, and he held them an Assembly at Yorke and there he made Masons and gave them Charges and taught them the Manners, and Comands the same to be kept ever afterwards And tooke them the Charter and Commission to keep their Assembly and Ordained that it should be renewed from King to King, and when the Assembly were gathered together he made a Cry that all old Masons or young that had any Writeings or Vnderstanding of the Charges and manners that weere made before their Lands wheresoever they were made Masons that they should shew them forth, there were found some in ffrench, some in Greek some in Hebrew and some in English, and some in other Languages, and when they were read and over seen well the intent of them was vnderstood to be all one, and then he caused a Booke to be made thereof how this worthy Craft of Masonrie was first founded and he himselfe Comanded and also then caused that it should be read at any tyrae when it should happen *any Mason or Masons to be made to give him or them their Charges, and from that time vntill this Day Manners of Masons have been kept in this Manner and forme as Well as Men might Governe it and ffurthermore at diverse Assemblyes have been put and Ordained diverse Charges by the best advice of Masters and ffellows (Tunc vnus ex Senioribus tentat Librum et ille ponent manam Suara Super Librum^ Every man that is a Mason take good heede to these Charges, If any man finde himselfe guilty in any of these Charges we pray that he may amend himselfe or princpially for dread of God you that be

charged take good heede that you keep all these Charges well for it is a great perill to a man to forswear himselfe vpon a Booke.
